ISSN 0041-7874 Key title:
Catalog of copyright entries.
Third series. Part 6.
Maps and atlases.

Preface

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

The *Catalog* is subdivided into parts corresponding to the classes of material listed in section 5 of Title 17 of the *United States Code*. The table at the end of this preface shows the organization of the *Catalog*, the symbols used with the registration numbers to identify the classes, and the prices of the semiannual or annual issues.

The record of each copyright registration listed in the *Catalog* includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant as given in the application for registration, the copyright date, the copyright registration number, etc.).

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Information as to changes of copyright ownership is not included in the *Catalog*, but a search of the Copyright Office Assignments and Related Documents Indexes may be requested from the Register of Copyrights. A fee for the search and report will be estimated at the statutory rate of \$5 per hour.

For each registration listed, except for renewals, there has been deposited a copy or copies of the work in accordance with the provisions contained

in sections 12, 13, 14, or 215 of Title 17 of the *United States Code*.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Orders may be placed for individual issues, as subscriptions for one or more parts, or for the complete *Catalog* at \$75 a year, for periods of one, two, or three years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the Superintendent of Documents.

The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington, D.C. 20559.

Organization of Parts

Each part listed in the following table records all current registrations in the class or classes indicated by the alphabetical symbols. Renewal registrations are listed separately at the end of each related part.

The first letter of the symbol is that of the class under which registration is made. Second and third letters, if any, that follow the initial letter are added by the Copyright Office for the purpose of statistical analysis. Their significance is as follows:

- F Published foreign works. In the case of books and periodicals, it designates works manufactured outside the United States (except those registered for ad interim copyright). In all other classes to which it applies, it designates works first published outside the United States, the authors of which are neither citizens nor domiciliaries of the United States. (AF, EF)
- I Books and periodicals registered for ad interim copyright. (AI, BI)

- O Published works of foreign origin registered under the waiver-of-fee provision (section 215 of Title 17 of the *United States Code*). (BIO, GFO)
- P Domestic published works in classes for which registration is possible for either published or unpublished works. (EP, JP)
- U Unpublished works in classes for which registration is possible for either published or unpublished works. (DU, EU)

Current Registrations	Page 1
Renewal Registrations	31
Area List	33

Introduction

PART 6 lists domestic and foreign maps, atlases, and other cartographic works registered in class F. Works for which the copyright has been renewed are listed separately in the Renewal Registrations section.

Arrangement is alphabetical under the name of the author (i.e., the person or organization principally responsible for the content of the work). Each work is described in a main entry which includes information pertinent to the copyright claim. References are made to the main entries from the names of contributing authors (e.g., joint authors, editors), publishers, claimants, and from variant forms of names. The Area List for currently registered works is arranged alphabetically by area.

For works currently registered, each main entry includes, in addition to the name under which it is filed, the following items of information if available and applicable:

- 1) Title, amplified if necessary by a brief identification of the area covered by the work.
- 2) Names of contributing authors.
- 3) Edition statement.

- 4) Place of publication for all foreign works; and for domestic atlases and plat books if given in an imprint on the work, unless the work is entered under the publisher as author.
- 5) Name of the first-named publisher; when the publisher is also the author, the name is omitted.
- 6) Physical description, including number of pages or volumes if applicable.
- 7) Series statement.
- 8) Special descriptive data which includes scale, projection, and statements of insets and other supplementary maps.
- 9) Names of authors given in the application which do not appear elsewhere in the entry.
- 10) Name of the employer in the case of a work made for hire, if so named in the application.
- 11) Application title if it varies substantially in wording from the title as it is given on the work.

- 12) Information contained in the application which relates to the registration of an earlier version of the work.
- 13) Brief statement of the new matter on which copyright is claimed, preceded by the abbreviation NM, if this information is given in the application and is not indicated elsewhere in the entry.
- 14) Copyright symbol ©.
- 15) A statement of limitation of claim if the application or notice on the work explicitly limits the claim.
- 16) Name of the copyright claimant.
- 17) Date of publication as given in the application.
- 18) Registration number.

Whenever it is necessary to indicate a variation between the information given in the application and in the copy of the work with respect to the claimant's name or the date of publication, the data from the application is given first, followed by the phrase "in notice" and the data given in the work; e.g., © Richard Roe & Co.; 8Jan73 (in notice: 1972); F55500.

For renewal registrations, each main entry includes, in addition to the name under which it is filed, the following items of information if available and applicable:

- 1) Title, including area.
- 2) Names of contributors to the work.
- 3) Edition statement.
- 4) Brief statement of the new matter on which the original copyright was claimed, preceded by the abbreviation NM, if available in the renewal application.
- 5) Copyright symbol ©.
- 6) Date of original copyright.
- 7) Original registration number.
- 8) Name of the renewal claimant followed by a statement in parentheses, usually abbreviated, giving the basis of the renewal claim as supplied by the applicant; e.g., "John Doe & Co. (PWH)" indicates that renewal of copyright is claimed by John Doe & Co. as proprietor of copyright in a work made for hire.
- 9) Date of receipt of the renewal application or fee, whichever is later.
- 10) Renewal registration number.

Registrations January-June 1973

Class F—Domestic published maps . . .	1,075
Foreign published maps . . .	51
<hr/>	
Total	1,126
Renewals	44

These figures represent the number of registrations for maps for January-June 1973, but do not necessarily represent the exact number of entries in this issue of the *Catalog of Copyright Entries*. Registration figures for other classes of material may be found in the respective parts.

Abbreviations and Symbols

The following list includes abbreviations and symbols used in this catalog with specific copyright or bibliographic meanings.

(A)	author(s)	NM	new matter
a.a.d.o.	accepted alternative designation of	no.	number(s)
a.k.a.	also known as	nouv.	nouveau, nouvelle
acc.	accompaniment	op.	opus
Adm.c.t.a.	Administrator(s) cum testamento annexo	p.	page(s)
Adm.d.b.n.c.t.a.	Administrator(s) de bonis non cum testamento annexo	(PCB)	proprietor of copyright in a work copyrighted by a corporate body otherwise than as assignee or licensee of the individual author
appl.	application	(PCW)	proprietor of copyright in a composite work
approx.	approximate, approximately	(PPW)	proprietor of copyright in a posthumous work
arr.	arranged, arrangement, arranged by	(PWH)	proprietor of copyright in a work made for hire
Aufl.	Auflage	prev.	previous, previously
augm.	augmented	print.	printing
Ausg.	Ausgabe	priv. print.	privately printed
b&w	black and white	pseud.	pseudonym
Bd.	Band (German)	pt.	part, parts
bearb.	bearbeitet	pty.	proprietary
©	copyright symbol	pub.	published, publishing
(C)	child or children of the deceased author	R, (R)	renewal registration
ca.	circa	reg.	registered, registration
chap.	chapter(s)	rev.	revised
col.	colored	sd.	sound
comp.	compiler	sec.	seconds
d.b.a.	doing business as	ser.	series
(E)	executor(s) of the author	si.	silent
ed.	edition, editor	suppl.	supplement
enl.	enlarged	t.	tome, tomo
fr.	frames	T., Th.	Teil, Theil
ft.	feet	t.a.	trading as
hrsg.	herausgegeben	t.p.	title page
illus.	illustration(s)	tr.	translator
m	music, music by	v., vol.	volume, volumes
min.	minutes	w	words, words by
mm.	millimeters	(W)	widow of the author
(NK)	next of kin of the deceased author	(Wr)	widower of the author

These entries alone may not reflect the complete Copyright Office record pertaining to a particular work. Contact the U.S. Copyright Office for information about any additional records that may exist.

MAPS AND ATLASES

CURRENT REGISTRATIONS

A list of domestic and foreign maps, atlases, and other cartographic works registered during the period covered by this issue. Arrangement is alphabetical under the name of the author. References from the names of contributing authors, claimants, and publishers, and from variant forms of names are interfiled.

For works claimed by Tobin Surveys, Inc. See TOBIN (EDGAR) AERIAL SURVEYS.

AREA LIST

A list of the current registrations in this issue arranged by area, designed to meet the needs of those who are searching for a map of a specific area.

The area headings consist of the names of the largest geographical or political units enclosed within the borders of the several maps. When the borders of a map do not coincide in any way with a single geographical or political unit, the name of the most significant unit contained therein is used in the heading. When a map contains three or more states comprising part of one of the geographical divisions of the United States, one of the headings which is given below in the list of "Geographical Divisions of the United States" is used. If the area shown on the map does not coincide with any of these divisions, one of the more generalized headings is used, e.g., United States, Northern. Names of rivers, lakes, and other geographical features are also included.

Library of Congress card no. 6-35347.

This number identifies the Library of Congress printed card for the complete series of the *Catalog of Copyright Entries*.

ISSN 0041-7874 Key title: Catalog of copyright entries. Third series. Part 6. Maps and atlases.

For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Price of this part is given on page vi.

Preface

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

The *Catalog* is subdivided into parts corresponding to the classes of material listed in section 5 of Title 17 of the *United States Code*. The table at the end of this preface shows the organization of the *Catalog*, the symbols used with the registration numbers to identify the classes, and the prices of the semiannual or annual issues.

The record of each copyright registration listed in the *Catalog* includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant as given in the application for registration, the copyright date, the copyright registration number, etc.).

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Information as to changes of copyright ownership is not included in the *Catalog*, but a search of the Copyright Office Assignments and Related Documents Indexes may be requested from the Register of Copyrights. A fee for the search and report will be estimated at the statutory rate of \$5 per hour.

For each registration listed, except for renewals, there has been deposited a copy or copies of the work in accordance with the provisions contained

in sections 12, 13, 14, or 215 of Title 17 of the *United States Code*.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Orders may be placed for individual issues, as subscriptions for one or more parts, or for the complete *Catalog* at \$75 a year, for periods of one, two, or three years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the Superintendent of Documents.

The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington, D.C. 20559.

Organization of Parts

Each part listed in the following table records all current registrations in the class or classes indicated by the alphabetical symbols. Renewal registrations are listed separately at the end of each related part.

The first letter of the symbol is that of the class under which registration is made. Second and third letters, if any, that follow the initial letter are added by the Copyright Office for the purpose of statistical analysis. Their significance is as follows:

- F Published foreign works. In the case of books and periodicals, it designates works manufactured outside the United States (except those registered for ad interim copyright). In all other classes to which it applies, it designates works first published outside the United States, the authors of which are neither citizens nor domiciliaries of the United States. (AF, EF)
- I Books and periodicals registered for ad interim copyright. (AI, BI)

- O Published works of foreign origin registered under the waiver-of-fee provision (section 215 of Title 17 of the *United States Code*). (BIO, GFO)
- P Domestic published works in classes for which registration is possible for either published or unpublished works. (EP, JP)
- U Unpublished works in classes for which registration is possible for either published or unpublished works. (DU, EU)

Introduction

PART 6 lists all registrations made in class F for the period covered by this issue. The main entries are listed in order by registration number with an index from names and titles associated with the work to the registration number.

The main entries include, when applicable, the following information derived from the work and application.

1. Title, followed by subtitle and/or descriptive statements. The authorship of the work is included in this statement, with the nature of authorship (if available).
2. Edition statement.
3. Country of publication for works registered as foreign or as ad interim works.
4. Label name and number for registered sound recordings.
5. Physical description of the deposit.
6. Series statement.
7. Additional titles associated with the registered work such as variant titles, alternative titles, translated titles, etc.
8. Notes; information is given here which serves to supplement the data that is given elsewhere in the entry in order to describe a work more accurately or identify it more explicitly.
9. Statement that the registered work is published in or as part of another work, or is bound with another independent work.
10. Names of authors given in the application which do not appear elsewhere in the entry.

11. Statement of those materials contained in the registered work on which copyright is not claimed, when so stated in the application.

12. Information contained in the application which relates to the registration of an earlier version of the work.

13. Brief statement of the new matter on which copyright is claimed when so stated in the application.

14. Copyright symbol © or ®.

15. A statement of limitation of claim if the application or notice on the work explicitly limits the claim.

16. Name of the copyright claimant.

17. Date of publication for published works; for unpublished works the date on which the last of all items required to complete registration (i.e., copy, application, and fee) was received in the Copyright Office.

18. Registration number.

For published works, whenever it is necessary to indicate a variation between the information given in the application and in the copy of the work with respect to the claimant's name or the date of publication, the data from the application is given first, followed by the phrase "in notice" and the data given in the work; e.g., © John Doe; 11Aug 73 (in notice: 1972).

For renewal registrations the original date of publication and registration number precede the name of the claimant of the renewal registration. Follow-

(vii)

These entries alone may not reflect the complete Copyright Office record pertaining to a particular work. Contact the U.S. Copyright Office for information about any additional records that may exist.

ing the name of the renewal claimant is a statement in parentheses, usually abbreviated, giving the basis of the renewal claim as supplied by the application; e.g., "John Doe (A)" indicates that John Doe has made renewal claim as author.

The index consists of names and titles associated with the registered works interfiled word by word in a single alphabet. The index term is followed by the registration number of the work(s) with which that term is associated. Index terms beginning with

numerals will be filed alphabetically, spelled as they would be spoken.

Works deposited in connection with current copyright registrations may be selected for inclusion in the collections of the Library of Congress. Library of Congress printed cards are available for many of the published works so selected. Orders for such cards or inquiries concerning them should be addressed to the Card Division, Building No. 159, Navy Yard Annex, Washington, D.C. 20541.

Registrations July–December 1973

Class F—Domestic published maps-----	614
Total -----	614

Renewals -----	140
----------------	-----

These figures represent the number of registrations for maps for July–December 1973, but do not necessarily represent the exact number of entries

in this issue of the *Catalog of Copyright Entries*. Registration figures for other classes of material may be found in the respective parts.

RENEWAL REGISTRATIONS

A list of maps, atlases, and other cartographic works for which renewal registrations were made during the period covered by this issue. Arrangement is by registration number; as renewal registrations are numbered continuously for all classes, there will be breaks in the sequence for any given type of material. Information relating to both the original and the renewal registration is included in each entry.
